

# Passive Animations

Please make screen flicker/shake every few seconds

Please add gentle pulsing/glow effect to light coming from lamp

Please animate steam coming from cup

Please make phone ring and shake/vibrate

Please make individual cubes glimmer/sparkle

# Click-Prompt Animations

\*PLEASE OVERLAY THESE ANIMATIONS OVER THE "Passive Animations"\*

Please add a light sweeping glow animation every 3 seconds across all highlighted items (to prompt users to click on items. This animation shows they are interactable.)

- please add this overlay on top of the "passive animations"

## SWEEPING ANIMATION DETAILS

- Please make the sweeping glow animation/click-prompt animation sweep from left to right
- Please make the animation pass over all highlighted items together (the same, large sweeping animation should create the effect over all items - the items should NOT have their own, individual glow animations)

# Hover Animations

\*FOR HOVER ANIMATIONS, DO NOT INCLUDE "Click-Prompt Animations" GLOW ANIMATION\*

Please make screen flicker and replace "NO SIGNAL" with "YOU'RE EARLY" for 2 seconds, then flicker back to normal "NO SIGNAL" screen

Unroll blueprint slightly more

Please have phone crack open slightly

Please make lens extend

Please make case crack open slightly to dark interior with slight glow coming from inside

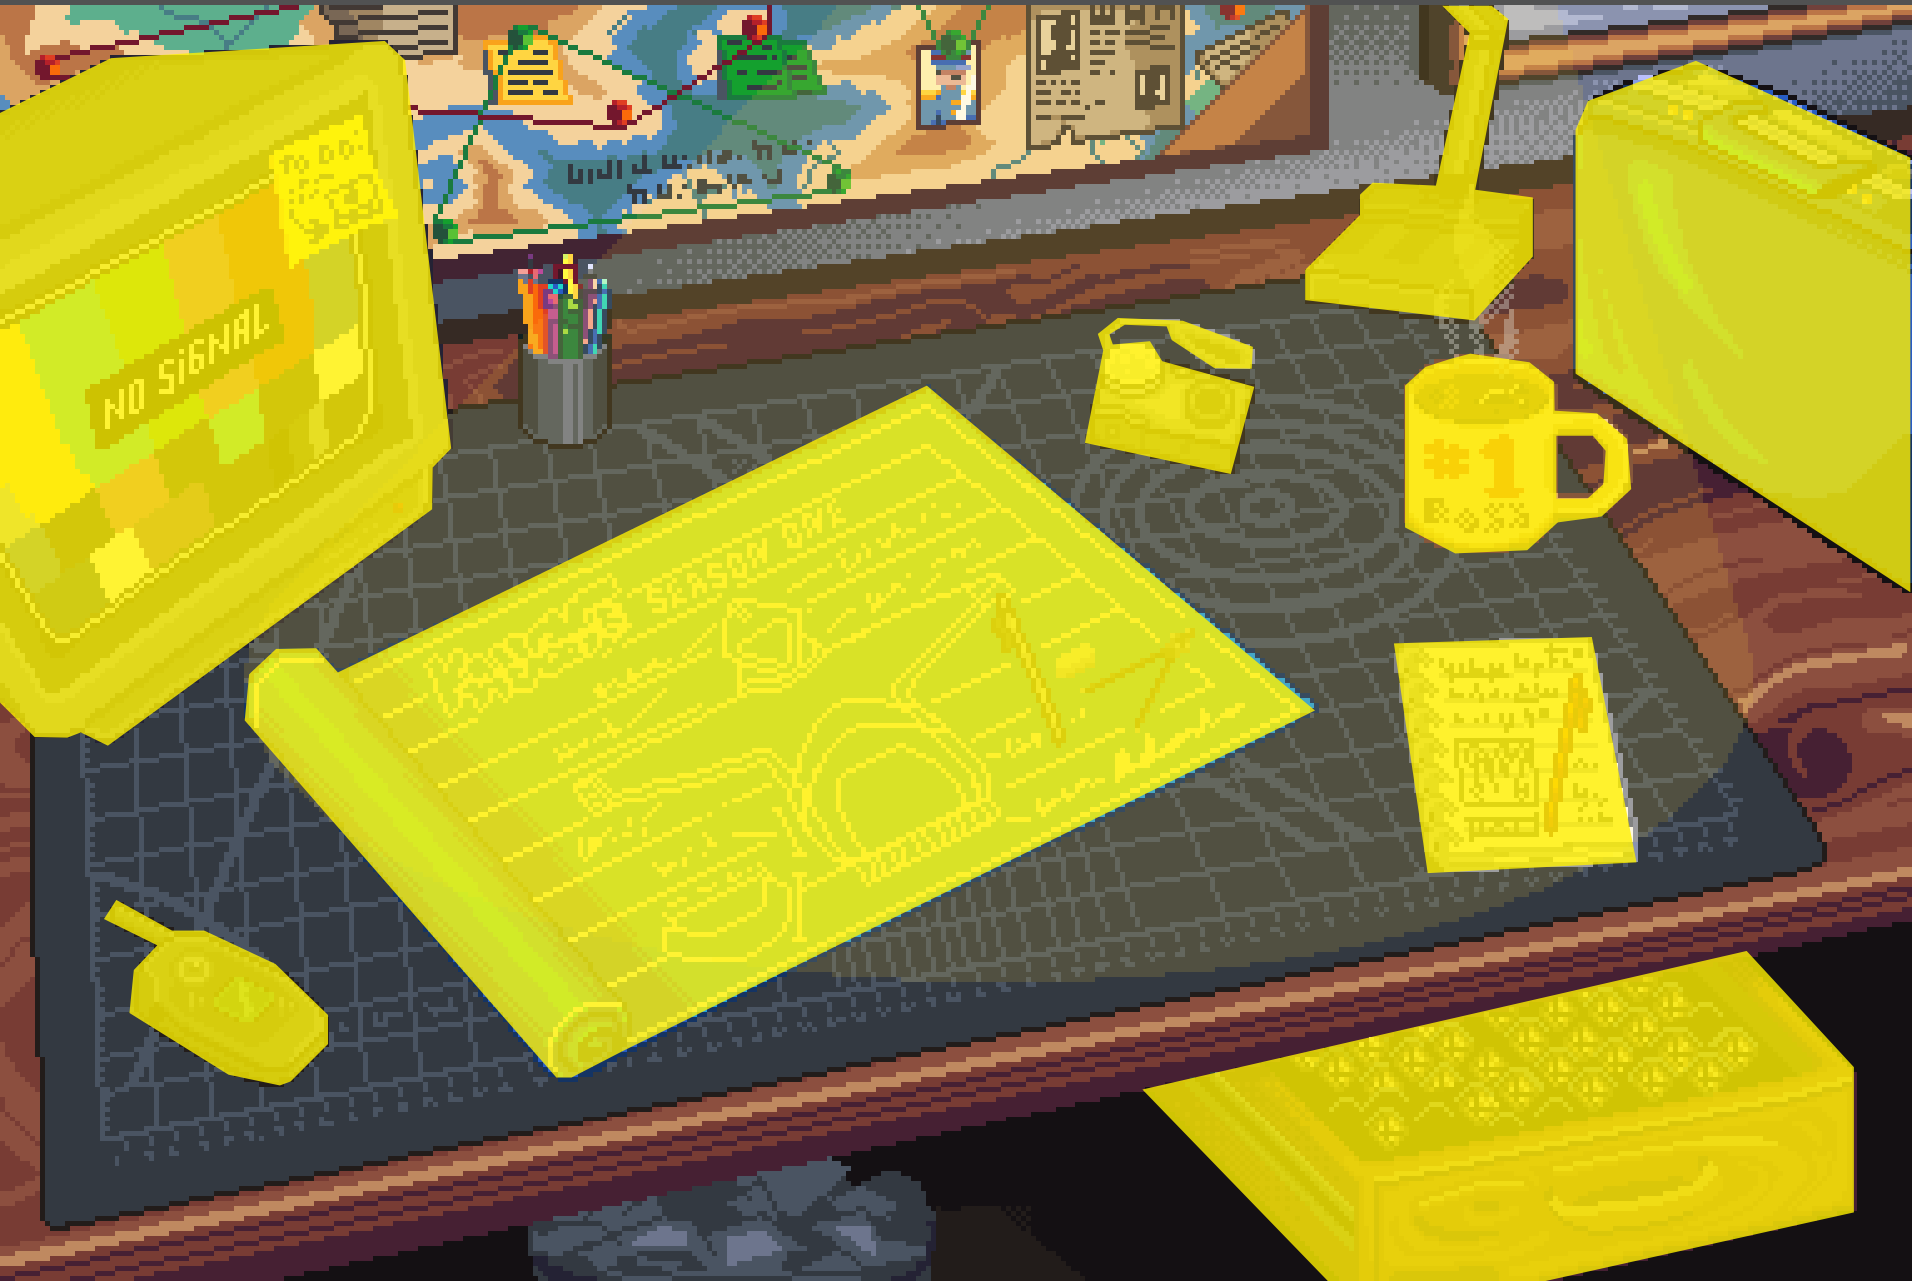

Please have pen move and change angle a bit

Please make drawer pull out slightly

# Desk Background Image

\*Please remove all items highlighted in yellow from the desk image\*
